

**HPPOA PMAR Committee**  
**Minutes of July 18, 2017 meeting at the HPPOA Library**  
Call to Order by Leilani Bronson Crelly at 4:05 p.m.

Roll Call: Leilani Bronson Crelly, Alexa von Alemann, Lori Lausik, Beth Evesong, Christian Andersen.

Agenda: discussion on our power point presentation at the last General Membership Meeting and the subsequent rebuttal by our elected representatives as well as their HTH published letter regarding PMAR. Rep. Joy San Buenaventura's quest for an alternate route to Lower Puna now mentions a road to, as opposed to through HPP. If certain roadways are going to be deeded to County of Hawaii they would need to be brought to County standard by HPPOA first. This may be cost-prohibitive as the line of sight, thickness of roads and width of our private roads are far below the current standards, although Rep. San Buenaventura stated she was trying to loosen them.

Leilani Bronson Crelly voiced her concern regarding liability of a private subdivision in case of an accident in case motorists chose a non-deeded road through HPP to shorten their travel due to heavy traffic, slow drivers or an obstruction on a deeded roadway. Who would be legally responsible?

Members and guests also discussed construction of Hwy 130 by Shower Dr. and directions to use our private roads for the detour that may last a very long time. Toll on our roadways and possible liability issues are of concern.

Leilani mentioned that due to insinuations voiced by our Rep. San Buenaventura she would like to remove herself from her position of the Committee Chair. Leilani Bronson Crelly nominated Christian Andersen to chair the HPPOA PMAR Committee, Beth Evesong seconded, the motion passed unanimously.

Plans: The members will keep on attending Connectivity and other Meetings to keep abreast of current plans and voice their opinions as necessary. Counting of the survey replies after Labor Day.

Adjournment: The meeting closed at 5:35 p.m.  
Next Committee meeting Sept. 19, 2017
