

HPPOA BOARD OF DIRECTOR'S MEETING

AUGUST 18, 2021

GENERAL MANAGER'S REPORT FOR JULY 2021

SUBMITTED BY DON MORRIS

The office has started working with our auditing firm to provide them with the information for the upcoming audit.

The office has processed the liens for most past due road maintenance accounts.

The paving project for 6<sup>th</sup> street Makuu Dead End and 14<sup>th</sup> Kaloli Dead End has started. The paving project for 12<sup>th</sup> Paradise to Kaloli will be starting by the end of the month.

The warehouse was broken into over the weekend again, so I really have no road maintenance information for you because they stole the computer among a list of other things.

The 2500-gallon water tank at the activity center that feeds the bathrooms has a leak and needs to be replaced. The cost is about 4900 dollars plus installation. I don't have the installation price yet. They will be out next week.
