General Manager's Report for December 2016

Submitted by Don Morris

Thank you for all your road maintenance requests. I know that we have a lot of bad roads right now with lots of potholes. The last three months of rain has not helped this issue at all. The Road Crew will be getting to your road as quickly as possible, so please be patient and hope that the rain stops for a while.

I received the samples back from the AggreBind labs. They are on the table for your review. As you can see, this is not just a dust suppressant like other products such as Levitrap, it is an actual binding product that binds the material together. I think this product will work a lot better for this subdivision than other products.

Equipment:

We still are waiting for the repairs to be done on the Volvo grader. The mechanic has been really busy and hopefully he will be getting to us soon. The backhoe is having some more minor repair done that are almost finished. All other equipment is running fine at this time. We continue to do the daily maintenance and repairs on all other equipment in-house.

Mowing:

The Road Crew mowed 68 miles with the sidearm mower and 69 miles with the new deck mower.

Gravel, Graded & Rolled: 9.5 miles

Rubbish Pick-up: 1.75 Tons

Dead Animals Removed: 5 pigs

Abandoned Vehicles: 6 vehicles tagged and 2 of them removed

Signs Replaced: 6 Stop Signs

Safety Report: No accidents or injuries for the past 42 months.

Thank you for your support.
