Subject: HPPOA Discussion

Dear Hawaiian Paradise Park Owner's Association,

Thank you for meeting with our U.S. Postal Service Hawaii leadership team today to discuss mail delivery to your Hawaiian Paradise Park community.

Per our ongoing discussion, and according to the Postal Operations Manual (63 1.24) ' .centralized delivery is the preferred mode for new or extended business or residential delivery points... The mail receptacle and location of the delivery point(s) are approved by local postal officials in advance.. .Options and requirements for modes of delivery are directed by the Postal Service."

As it applies to HPP, we will approve mail delivery to Cluster Box Units (CBUs) and parcel lockers at the 4-5 mutually agreed upon centralized locations within your community. We will not approve delivery to individual homes within HPP.

Maintaining or expanding delivery to CBUs and parcel lockers at their currently scattered roadside locations is also not an option, due to concerns about accessibility and the safety of our postal delivery personnel.

At this point, we await word from you that the agreed upon CBU locations have been graded and concrete pads have been completed, per the plans that you have shared with us. Once those steps are complete, we will proceed with the installation of the CBUs at those locations.

We look forward to working with you on the completion of this mail delivery project.

Mahalo,
