Subject: Protection and Stewardship of the 31-acre Waikahekahe (HPP) Cultural Site, and Allocating Funds to fulfill the work Outlined in the HPP and County of Hawai'i Community Plans.

To: HPP Board and Membership

From: Kepā & Onaona Maly

Good evening members of the Board and Community members:

We encourage that the HPP Board act in good faith to fulfill commitments made to protect, honor and respect the remains of traditional Hawaiian cultural sites which have been the topic of HPP and County of Hawai'i communications, planning documents and discussions since 1985. Among the documents which address long-term preservation, informed (educated) access, and care for these sites are the:

April 18, 1997 County Council Communication A. L. Smith, Vice Chair Hawaii County Council, to J. Y. Arakaki, Chair Hawaii County Council

[Reference to 31 acre Archaeological Site:]

6. The archaeological site described earlier provides study opportunities for an education institutional and its development into a ethno-botanical park

October 20, 2015
County of Hawai'i State of Hawai'i
Resolution No. 284 15
A resolution Adopting the 2015 Hawaiian Paradise Park Community Master Plan...

"Archaeology/Cultural Resources: To investigate and protect historical sites." (2015:3)

"Archaeological Resources: Within the subdivision exist some archeological sites attributed to an ancient Hawaiian settlement. A report was produced by Archaeologist Paul H. Rosendahl in 1985. Further investigation has been requested by the State Historic Preservation's Sean Naleimaile, Hawai'i-Assistant Archaeologist, who can be reached at (808) 933-7651 or at Sean. P. NaleimailekHawaii.gov. Due to the fact that laws pertaining to historical property have changed over the past ten years it is possible a new assessment may be necessary for HPP. (See Appendix D)..." (2015:6)

Note: Appendix D begins on pdf page 87 and continues through pdf page 89, presenting a copy of the June 9, 1985 Memo Report of a site visit conducted on April 21, 1985, resulting in the identification of multiple contributing archaeological features within the 31 acre preservation site discussed above on pages 3 & 6. (Copy of June 9, 1985 Memo Report Attached.)

In 2022, we volunteered to prepare an ethnohistorical study that provides important details on the traditions and history of lands within HPP (also their relationship to other neighboring lands),

June 21, 2023
Maly to HPP Board & Membership
Waikahekahe 31-acre Preservation Site

and specifically addressed traditional Hawaiian cultural features that exist within the 31-acre Waikahekahe parcel made up of TMK 1-5-23:74, 1-ac.; -75, 1-ac.; -117 1-ac.; -126 18-ac.; 147, 9-ac.; and & -184, 1-ac. That study may be accessed at https://www.kumupono.com/wp-content/uploads/2023/03/2022 11 14 KPA12c Vol I Waikahekahe-Keasu Ethnohistorical Study.pdf

At the May 2023 board meeting all but one board member—being Jim Marquez of California—voted in favor of setting aside funding to conduct professional archaeological field work as a means of learning about and understanding the nature of this unique and threatened cultural site. The best proposal came in from Nohopapa Hawai'i, dated May 17, 2023.

It is critical to the integrity of HPP and the duty of care that the board and membership have for this wahi pana (storied and sacred place) in Waikahekahe, that funding be made available and that the archaeological work be undertaken, so that we can best plan long-term protection and stewardship of the biocultural landscape.

We are opposed to develop and any use of the 31 acre Preservation parcels for other purposes than those which will mālama (protect/care for) the cultural sites and foster appreciation of Hawai'i's indigenous culture and history.

Let the golf course, water wonder-lands and other unnecessary features remain on the continent, and keep them out of HPP and Puna. Don't disrupt our way of life. Keep Hawai'i, Hawai'i!

Humbly,

Kepā & Onaona Maly Cultural Ethnographers
