Side Arm Mower has been out of service for a while but should be back in action soon. Last mowing was at 22nd and working its way up.

Roads Watered: 55.25 miles of roads watered

Paving: CIVIL Construction has finish at Pohaku awaiting the striping and box reflectors

Personnel Items:

I've been in Montana for the last 2 and a half weeks. While there I met up with other road associations to see what they have been using for dust abatement. What they are using is not plausible to ship and use on our roads due to cost associated with shipping and preparation. Also met up with machinery sales to get the best deal for equipment. Items available were just not in the proper condition to be used here due to the wear and tear caused by snow and salting of the roads.

Equipment:

Still waiting for the new engine for the old Backhoe. We found a few mowers for the CIP and Water trucks that could meet our needs. The crew has been working hard to get the best deals for our equipment needs.
