

# Hawaiian Paradise Park Owners Association

Aloha HPP,

I'm writing to provide an update on the progress of the mail parks. We've successfully completed the installation at 4th and Kaloli, which now includes 2,016 individual mailboxes and 16 parcel lockers. We expect to receive a status update from USPS soon regarding the assignment of boxes and the start of mail delivery services.

The installation at 6th and Makuu is currently underway and is expected to be completed within the next week or two. USPS has allocated two additional workers to expedite the process, so there are now four USPS employees focused on installing the remaining mailboxes and parcel lockers.

Following the completion of the 6th and Makuu CBUs, we will begin the installation of the mailboxes at 14th and Kaloli.

We are optimistic that all four mail parks will be completed within the next few months.

Once each park is operational, we will notify you via banners displayed in the park, updates on our website, and posts on social media. At that time, we will start issuing keys from the HPPOA Office, with mail delivery services to commence shortly thereafter.

The Mail Park Beautification Committee, which was endorsed by the board and approved by the members at the June membership meeting, has begun work on developing a project plan, plot plan, and ensuring insurance coverage and waivers are in place for volunteers working onsite. They are also in the process of gathering the necessary resources.

We appreciate everyone's patience and the strong support you've shown for this essential project within HPP.

If you have any questions, please don't hesitate to contact your district representative or the office.

Mahalo,

Kari Hoffman  
HPPOA Board President
