Previous meeting minutes approval: Maeda made a motion to approve the October 12, 2024 meeting minutes as corrected; Ogawa seconded; approved unanimously.

AGENDA ITEM	DISCUSSION	ACTION
UNFINISHED BUSINESS		
Update on 16 th and Maku`u burial cave: Larry Torres, HPPOA General Manager 1. Clarification of burial cave disturbance, July 2024 2. Address errors in SHPD memo, October 2023	<p>Larry Torres, HPPOA general manager, attended the meeting to clarify the incident in which construction equipment exposed a large lava tube at the 16th and Maku`u mailbox site (as reported in the July 15, 2024 memo) and to address errors in the October 16, 2023 memo (both from Nicole Mello, Hawai`i Island Lead archaeologist, SHPD, DLNR). This was in response to emails with Larry and Lanell, which were initiated by Danee McFarr.</p> <p>Larry made it clear about the information that he was relaying. "I can only answer for myself, my actions, and opinions. I cannot answer for anyone else, the Board, the Board members, Board decisions." He led committee members to the site, where he provided a summary of his involvement with SHPD staff and others on two occasions: October 16, 2023 regarding the report of the burial cave approximately 65 meters (213 feet) away from the construction site and nine months later, on July 15, 2024, when he reported a large opening in a lava tube caused by equipment at the edge of the construction site. (It was reported by the state's lead archaeologist in her July 15, 2024 memorandum that the lava tube is one of three sections of a connecting lava tube system that includes the original</p>	For information. No action taken.

Cultural Preservation Committee Meeting – November 9, 2024

AGENDA ITEM	DISCUSSION	ACTION
<p>Update on burial cave: Larry Torres (cont'd)</p>	<p>burial cave documented in October 2023.)</p> <p>At the October 16, 2023 onsite visit, representatives from SHPD and DLNR asked Larry if the construction work would get closer to the burial cave. He told them that it would not because a temporary orange fence established the limit. It was not known at that time that what appeared to be a mound of dirt was actually a very large lava tube which connected to the burial cave. The statement in the October 2023 memo, "We were also informed that the extent of the work was complete and only mulching was left." was misleading because, as Larry told us, he was referring to only that phase of the work. Regarding the October 2023 memo, Larry said that the only error was misidentifying him as Larry Kawaaauhau.</p> <p>Regarding the July 15, 2024 memo about the newly exposed lava tube, Larry told us that upon returning to work from a three-week vacation, he saw the exposed lava tube. He called DLNR and SHPD and told the workers to stop (according to the memo, there were "two individuals conducting the construction activities"). In answer to a question about when the lava tube was revealed and who caused it, Larry said that he "...can only answer for what I saw when I was there."</p> <p>Committee members thanked Larry for sacrificing his personal time to attend the meeting and answer questions.</p>	
<p>Update on 16th and Maku`u burial cave: Previous meeting action item re protection and commemoration followup</p>	<p>Collaborate with Keoni Alvarez on plans to involve the community via communication efforts, including a sign-up sheet for email notification and posting on CPC website.</p> <p>Due to lack of time, tabled to next meeting.</p>	<p>Discuss at next meeting.</p>
<p>Archaeological study: Recommendations from CPC to HPPOA board</p>	<p>The members unanimously approved the following recommendation for Lanell to present to the HPPOA board at the next board meeting: It is recommended that the board approve and follow up on the archaeological study's recommendation 1a. Request assistance with obtaining an SIHP site designation for the site area. The CPC is willing to assist in this process as needed and requests a response or update on the process within the next 30 days.</p>	<p>Lanell to request board approval and action.</p> <p>Discuss board response and next actions at next meeting.</p>

Cultural Preservation Committee Meeting – November 9, 2024

AGENDA ITEM	DISCUSSION	ACTION
Ko'olauo Instagram page and website: Lanell Lua: Gmail account for website and Spencer Willis: Update on sites and member suggestions	Due to lack of time, tabled to next meeting.	Updates at next meeting.
