

Mail Park Update for October 25, 2026

Well, it is now 4 years since the first cluster mailbox units arrived at the maintenance yard in HPP. We now have two mail parks open and provide mail service to approximately 4000 addresses. This project has gone slower than USPS had promised but continues to progress. The office continues to hand out keys for both open mail parks. Special thanks to the team that volunteered working up to 10 hours a day for the first month and 5-hours a day the second month to get as many keys issued for 6th and Makuu mail park as possible.

14th & Kaloli Mail Park - The cluster units for the third mail park at 14th and Kaloli have started to arrive at the HPPOA maintenance yard and will continue to as they are shipped over from Maui. The county has assigned addresses to the vacant lots for the remaining two mail parks so that they can be sequenced by address and not TMK. HPPOA is awaiting the timeline from USPS for the installation of the 14th and Kaloli site which will be the largest with 2,622 addresses.

The Board of Directors announced that the 16th and Makuu site will be moved to the area behind the current 6th and Makuu site. This site will be for 2,016 addresses. Work is being done to get the layout prepared so it can go out to bid for the site preparation.

As a reminder, all addresses in the two active mail parks are now live, verifiable addresses which means that if you use your address in an application, they can now verify it is valid. This also means that when shipping packages, the address will be recognized. Owners are encouraged to pick up keys from the HPPOA office so that if you or a guest (if a rental unit) orders something using the street address and it is delivered via USPS it has a place to be delivered. If keys are not picked up, the packages will be returned to sender as undeliverable.

The mailboxes for Pohaku Circle will be addressed once the main mail parks are completed. We are talking with USPS about them at this time.

We will keep you posted on the progress of 14th & Kaloli via the HPPOA website. Watch for the banners on the roads to let you know when you can pick up your keys.
